9. ☐ Other \_\_\_\_\_.

**The following is an examiner's statement of reasons for allowance:** Applicant Admitted Prior Art ("AAPA") in view of Lys fails to disclose or render obvious a gaming device having a programmable top light with a programmable controller connected to each of red, green and blue ("RGB") LEDs in each segment of the light, such that variable current sources are connected to supply a controllable current to each of the RGB LEDs in each segment to control intensities of light and cause any of a variety of colors to be emitted from each segment, in combination with the other claimed limitations.

More specifically, the prior art fails to disclose or render obvious the claimed invention for the following reasons: At the outset, AAPA merely teaches a conventional top light or candle on a gaming machine. Lys, the secondary reference, teaches numerous applications for LEDs however its most pertinent teaching is a fixed-color, segmented light source in the form of a traffic signal. Each segment in Lys' traffic light source would have a fixed color and thus each segment could not be programmable so as to output different colors with different intensities controlled by a variable current source. Thus, even if AAPA was properly modified by Lys, the result would be a gaming machine top light with segments duplicating a fixed color. This falls short of the claimed invention.

After conducting a further search, Examiner discovered prior art to Hoorn (US 5,605,506), which teaches a candle antenna for a gaming machine. Hoorn discloses that his candle antennas are amenable to being used as a light source; with multiple bands in the candle antenna having different associated light sources. However, Hoorn essentially teaches the same concept as AAPA; a top light on a gaming machine with two or three different colored segments.

Thus, since the prior art does not teach or render obvious the structure required by the claimed invention, Examiner believes the invention is nonobvious. Therefore, Claims 1 and 3-23 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
